# FEATURES AND TECHNICAL SPECIFICATIONS

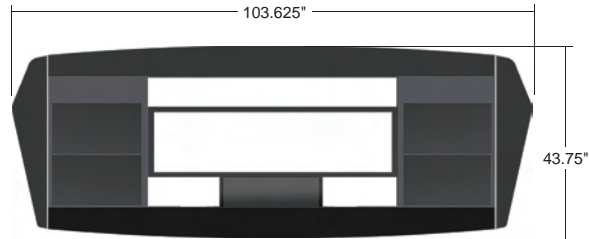

Mirage C|24 Dimensions

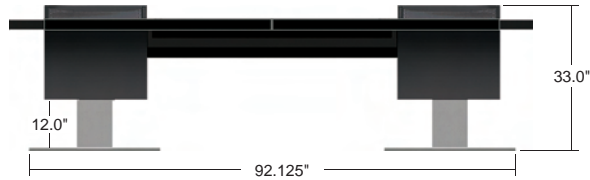

Cabling is fully concealed and protected inside leg channels.

## FEATURES AND TECHNICAL SPECIFICATIONS

Mirage C|24 Dimensions

Mirage C|24 Dimensions

**MIRAGE** consoles are palletized and shipped partially assembled for easy installation. Each model design is product specific for the best possible fit. Custom configurations and installation service available.

Chassis components are made of 3 to 14 gauge steel tubing and 19mm and 32mm thermofused and/or powder coated MDF to provide durability, strength, and density for minimal acoustical influence.

Mirage's low profile signature promotes sonic transparency. The open chassis design defeats thermal buildup.

Legs have large channel openings to permit easy cable access through rack support system. Cable pass-throughs in racking systems provide convenient cabling access to mixer and outboard peripheral gear.

## MIRAGE FOR C|24®

**MORE THAN** a functional space for your control surface and electronics, Mirage is an inspirational landscape that inspires and enables you to create your best work.

Custom fit for the AVID® C|24, the Mirage NC24 presents a bold, clean design with a precision fit & finish for the centerpiece of your room.
