

# G-series

For Presonus® StudioLive Series III

G25-PSL32S3-RR9

G22-PSL16S3-RR9

G22-PSL24S3-RR9

The unmistakable profile of G-series brings a sleek, elegant solution to Presonus StudioLive series III. G-series provides important features of a large format console to today's high powered control surfaces and ancillary gear.

Precision fit for StudioLive series III, the controller rests cleanly in the desk and features a covered utility area with removable mesh grill. The controller is flanked by writing areas and low profile rackspace. Sloped racks reduce early speaker reflection and feature removable back access panels to conceal and protect connections.

Creature comforts include padded armrest, ample leg room, and smart optional accessories.

Optional accessories include: add-on speaker platforms, articulating monitor arms, and mahogany end panel trim option.
